BIOECONOMY, BIOTECHS, AGRICULTURES FOR A VIABLE FUTURE

Living bodies grow everywhere. Fields, fermenters, biorefineries produce innovative substances for eating, building, driving, healing or dressing. Biotech is called upon to « customize » organisms the way we want to.

This bioeconomy is shaping the world to come. Will it be sustainable, frugal, agile, circular? Will it help us relocalize activities and redistribute wealth?

3 days of forums, conferences, workshops, meetings... to debate and share views about living organisms and the way we use them.

Festival Vivant is the place to be

- To get information about the bioeconomy challenges
- For sharing your projects and views
- To come up with criteria for a cooperation with ecosystems.

As part of the European program Synergene, with the support of Paris I Panthéon Sorbonne

UNIVERSITÉ PARIS I
PANTHÉON SORBONNE

Responsible Research and Innovation in Synthetic Biology

FESTIVAL VIVANT

THURSDAY SEPTEMBER 15TH - BIOECONOMY

TOWARD A BIOECONOMIC REVOLUTION ?

With Frank-Dominique Vivien (Univ. Reims), Martino Nieddu (Univ. Reims), Guillaume Lecointre (MNHN), Jane Lecomte (Univ. Paris Saclay), Cécile Renouard (ESSEC), François Léger (AgroParisTech), Gilles Trystram (AgroParis-Tech), André Fougeroux (Syngenta), Marc Delcourt (Global Bioénergie), Cyrille Pauthenier (Abolis Biotechnologies), Francis Duchiron (ex Pole IAR) et Alexandre Rambaud (AgroParisTech), Jean-Marie Chauvet (Fondation de Bohan), JC Gouache (Limagrain)

WORKSHOPS : SHARING EXPERIENCES LOOKING FOR SUSTAINABLE SOLUTIONS
EVENING : CINE-DEBATE : NATURE, THE NEW ELDORADO OF FINANCE

FRIDAY SEPTEMBER 16TH - BIOTECHS

ECOSYSTEMS AND SOCIETIES FACING NEW GENETIC TECHNIQUES

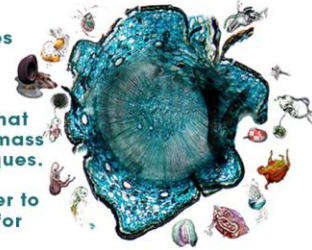

With Eric Marois (CNRS), Denis Couvet (MNHN), Pierre-Henri Gouyon (MNHN), Peter Rogowski (ENS Lyon), Gilles Truan (INSA Toulouse), Niels Braun (Haut Conseil aux Biotechnologies), Daniel Evain (FNAB), Thomas Heams (AgroParisTech), Joelle Zask (Univ. Marseille, Etienne Maclouf (MNHN), Olivier Lucas (RAGT), Johann Fournil M2iLifesciences

WORKSHOPS : WHITE BIOTECHS / GREEN BIOTECHS/ MODIFYING MOSQUITOS... FOR WHAT PURPOSES?
FESTIVE EVENING : PULSES BETWEEN SYMBIOSIS AND PARASITES, STUDENT PITCHES AND SHOWS

SEPTEMBER 15-16-17 TH, 2016, AT UNIVERSITE PARIS DIDEROT CAMPUS - AMPHI BUFFON, 15 RUE HELENE BRION PARIS 13^E

RER C / METRO LIGNE 14 (BIBLIOTHÈQUE F. MITTERRAND)

The bioeconomic transition is a major challenge. New agricultural opportunities and disrupting biobased productions redistribute roles and power between actors. The Festival vivant will enable stakeholders to learn and to consider what will happen with the massive use of biomass ? and with the new gene editing techniques. The Festival vivant will offer a forum to discuss issues, benefits and risks in order to develop the stakeholders responsibility for sustainable choices.

SATURDAY SEPTEMBER 17TH - BIODESIGN

SHAPING LIFE, FOR WHAT PURPOSES?

With JM Besnier (Paris I Panthéon-Sorbonne), Jean-François Tous-saint (IRMES), Bernard Stiegler (IRI, Ars Industrialis), Bernadette Bensaude-Vincent (Paris I Panthéon-Sorbonne), Michel Blay (CNRS), Dominique Bourq (UNIL Lausanne)

WORKSHOPS : SCENARIO BETWEEN POSSIBLE AND DESIRABLE
YOUTH PROGRAM: DRAW ME LIFE

THE INITIATIVES VILLAGE

PRESENTATIONS OF PROTOTYPES, PROJECTS AND INNOVATIVE ACHIEVEMENTS WITH BIOLOGY by start-ups, students, companies and various organizations

IMAGINE BIOFUTURES AREA

ART INSTALLATIONS, SCREENING, LIVE ENTERTAINMENT, interactions, experiments offered by artists
